Chip saw these innovative and incredibly entertaining parties being held all around the area that he was living in and thought that this would be the ideal party experience to bring with him to the Mid-Ohio Valley area, as this type of party entertainment had never really been seen before in the Midwest area of the country. The only problem was that the inconsistent and varying weather conditions seen in Ohio made it almost impossible to host these exciting foam parties outside, like the ones Chip had witnessed and attended in the almost always sunny state of Florida.

This hard-hitting reality gave Chip the idea to take this small hinderance in his plan and turn it into an amazing opportunity. If he couldn't hold the foam parties outside, then he would create a large facility that had the capacity to re-create the fun and entertaining outside foam party atmosphere he had experienced in Florida. Thus, The Foam Garage was born!

With one permanent location in Marietta, Ohio, a franchise location in Hurricane, West Virginia, and other franchise locations soon coming to a city near you, The Foam Garage is one the country's most innovative party hosting facilities. We have the complete ability to transform your party from boring and mundane into one of the most talked about events of the year! The Foam Garage offers a large space that can be utilized for birthday parties, events, and corporate gatherings and we even could offer you several different services, such as catering, even planning, and rentals. Here at The Foam Garage, we don't believe that the party should end once you leave the garage. With that being said, we have made our products, such as our foam solutions, foam machines, and foam barricades, readily available for you to purchase and take home so the foam fun can never end!
